AT ITS MEETING HELD ON
October 11, 2024 KH

CHARACTER OF USE:

Agriculture purposes.

CHAPTER 343 - ENVIRONMENTAL ASSESSMENT:

In accordance with Hawaii Administrative Rules (HAR) § 11-200.1-15 and the Exemption List for the Department of Land and Natural Resources reviewed and concurred on by the Environmental Council on November 10, 2020, the subject request is exempt from the preparation of an environmental assessment pursuant to General Exemption Type 1 that states, "Operations, repairs or maintenance of existing structures, facilities, equipment, or topographical features, involving negligible or no expansion or change of use beyond that previously existing," and Part 1, Item 36 that states, "Transfer of management authority over state-owned land, such as setting aside of state lands to or from other government agencies through a Governor's executive order." The proposed use and set-aside to the Department of Agriculture will probably have minimal or no significant effect on the environment and should be declared exempt from the preparation of an environmental assessment and the requirements of § 11-200.1-17, HAR. (Exhibit C)

APPLICANT REQUIREMENTS:

Applicant shall be required to:

- 1) Process and obtain subdivision at Applicant's own cost, where necessary; and
- 2) Provide survey maps and descriptions according to State DAGS standards and at Applicant's own cost, where necessary,

REMARKS:

BACKGROUND:

The set-aside of agriculture lands to (DOA) is pursuant to Act 90, Session Laws of Hawaii 2003 (Act 90), later codified at Chapter 166E, HRS. The purpose of Act 90 is to ensure the long-term productive use of public lands leased or available to be leased by the Department of Land and Natural Resources (DLNR) for agricultural purposes by allowing those lands to be transferred to and managed by DOA.

To date, DLNR has processed executive orders setting aside approximately 24,528 acres to DOA pursuant to Act 90. In 2023, BLNR and BOA approved the transfer to DOA of an additional 24,767 acres in Kau, Hawaii, under lease and revocable permit to Kapapala Ranch, but survey and subdivision are required before the executive order(s) for the transfer can be completed. DOA staff

conducted due diligence for the transfer of additional properties statewide and at its meeting of October 24, 2023, BOA approved the transfer of another 21,672 acres pursuant to Act 90.

REQUEST:

DOA has identified 44 leases and revocable permits on Hawaii Island, including leases and revocable permits for pasture, agriculture, intensive agriculture, and apiary uses, that DOA requests be transferred to it pursuant to Act 90. Of those 44 leases and revocable permits, the Division of Forestry and Wildlife (DOFAW) has requested that DLNR retain Revocable Permit No. 7693 to Kuahiwi Contractors Inc. for pasture use over 472 acres in Kau. Additionally, DOFAW previously indicated that it needs to establish public or management access over 9 of leases and permits before the lands are transferred to DOA. Those 9 leases and permits will require further coordination with DOFAW on the location of accessways before staff can make a recommendation to the Board on their transfer and will therefore be taken up at a later meeting.

Accordingly, at the present time, staff understands that DOFAW is agreeable to the transfer of the following 34 Hawaii Island leases and revocable permits to DOA without imposition of special conditions regarding access over the land.

Several of the parcels on the list approved by the BOA for transfer at its October 24, 2023 meeting already had BLNR approval for transfer and staff in the Hawaii, Maui and Kauai Districts, as well as the Support Branch in Honolulu, are working to complete the executive orders for the lands that have approval of both boards. However, the bulk of the parcels on BOA's October 24, 2023 approval list do not yet have BLNR approval for transfer, with the vast majority of those parcels located on Hawaii Island.

The 9 leases and 25 revocable permits listed encumber a combined total area of 5,260.741 acres with the majority of the dispositions (31) in use for pasture purposes along with two intensive agriculture properties and one apiary permit. The DOA will assume management responsibilities for the properties under the current dispositions.

Comments were solicited from State, County and Federal agencies. There were no objections to the proposed set aside for the parcels listed above.

RECOMMENDATION:

That the BLNR, subject to Applicant fulfilling the Applicant Requirements above:

1. Declare that, after considering the potential effects of the proposed disposition as provided by Chapter 343, HRS, and Chapter 11-200.1, HAR, this action will probably have minimal or no significant effect on the environment and is therefore exempt from the preparation of an environmental assessment.
2. Approve of and recommend to the Governor the issuance of an executive order setting aside the subject lands to Department of Agriculture under the terms and conditions cited above, which are by this reference incorporated herein and subject further to the following:
 - A. The standard terms and conditions of the most current executive order form, as may be amended from time to time;
 - B. Disapproval by the Legislature by two-thirds vote of either the House of Representatives or the Senate or by a majority vote by both in any regular or special session next following the date of the setting aside;
 - C. Review and approval by the Department of the Attorney General;
 - D. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State; and
 - E. In the event the lands are no longer needed for agriculture purposes, the executive order setting as the lands to the Department of Agriculture shall be canceled or amended, as appropriate, and the lands that are no longer needed shall be

returned to the inventory of Department of Land and Natural Resources, except with prior approval of the Board of Land and Natural Resources.

EXEMPTION NOTIFICATION

Regarding the preparation of an environmental assessment pursuant to Chapter 343, Hawaii Revised Statutes (HRS), and Chapter 11-200.1, Hawaii Administrative Rules (HAR):

Project Title: Set Aside to the Department of Agriculture for Pasture, Intensive Agriculture and Apiary Purposes.

Project / Reference No.:

Project Location: Government lands, Island of Hawaii;

Project Description: Transfer of Government Lands Pursuant to Act 90 SLH 2003.

Chap. 343 Trigger(s): Use of State Land

Exemption Class No. and Description: In accordance with Hawaii Administrative Rules (HAR) § 11-200.1-16 (a)(1) and the Exemption List for the Department of Land and Natural Resources reviewed and concurred on by the Environmental Council on November 10, 2020, the subject request is exempt from the preparation of an environmental assessment pursuant to Exemption Type 1, which states, "Operations, repairs or maintenance of existing structures, facilities, equipment or topographical features, involving negligible or no expansion or change of use beyond that previously existing." Part 1, Item 36 that states "Transfer of management authority over State-owned lands, such as setting aside of State lands to or from other government agencies through a Governor's Executive Order".

Cumulative Impact of Planned Successive Actions in Same Place Significant?: No. Staff believes there are no cumulative impacts involved.

EXHIBIT C

**Action May Have
Significant Impact on
Particularly Sensitive
Environment?:**

No. There are no particular sensitive environmental issues involved with the proposed use of the property.

Analysis:

The transfer of these lands is in conjunction with Act 90 of the 2003 Session Laws of Hawaii, requiring all existing agriculture leases and permits along with all suitable agricultural lands to be transferred from the Department of Land and Natural Resources to the Department of Agriculture upon approval of both the Board of Land and Natural Resources and the Board of Agriculture.

Consulted Parties:

State of Hawaii agencies
County of Hawaii agencies,

Recommendation:

That the Board find this project will probably have minimal or no significant effect on the environment and is presumed to be exempt from the preparation of an environmental assessment.

END
