Dear BLNR board members,

This note is in support of the proposed mortgage between DHL Mahi Opco and Goldman Sachs Bank. As a resident of the Mauna Lani resort, we feel strongly that continued use of the involved property by the resort is in the best interest of all concerned. Thank you.

Steven and JoAnn Curtis

Aloha,

I am in support of the continuation of Mauna Lani's lease on this section of land - Tax Map Key: (3) 6-9-001:017). Over the years, Mauna Lani has proven to be an exceptional steward of these public lands, showing a deep respect for the area's cultural and historical significance. Their continued efforts to preserve and maintain the important petroglyph sites ensure that these treasured areas remain protected and accessible for future generations.

Additionally, Mauna Lani has invested in the upkeep and enhancement of Holoholo Kai beach park, providing a clean, well-maintained, and welcoming space for both residents and visitors to enjoy. Over the years they have proved their commitment to keeping these sacred places maintained and focused on preserving the history and beauty of this special place. I have been a frequent user of holoholo kai park to surf, dive, fish & hang out with friends & family since i was born & I now share the park with my own kids. Holoholo kai is always clean maintained & open. For the above reasons I strongly agree with the renewal of this lease so they may continue this important work for our state.

Mahalo,

Bullet Oبرا  
Director of Watersports at Mauna Lani

Aloha,

I am in support of Mauna Lani to continue their lease on this parcel of land. Mauna Lani has taken great responsibility in the care of the historic and culturally important areas that are under their management.

They have continually worked to upkeep and improve the Holoholo Kai beach park by keeping it clean and accessible for locals and tourists alike. They have focused on keeping the brush trimmed back, and the grills and picnic tables up-kept for regular community use.

Additionally, they have worked to keep the historical petroglyph sites protected and accessible for this and future generations to enjoy, study, and learn from. I believe they have done a great job preserving the culture of Hawaii through their management of these important sites. Therefore I am in support of the continued lease on these lands.

Mahalo,

Ikaika Vivas  
Captain, Kalama Kai
